Now’s the time to improve your energy bottom line.

Taking control of your energy costs can be one of the most effective ways to free up cash in your business. Michigan Saves has made it easier than ever to find where your operation is wasting valuable energy in your business or organization and apply the latest in efficiency solutions to maximize return on investment.

Easy. Affordable. Smart.

Participating in the Business Energy Financing program is simple. A Michigan Saves authorized contractor will walk you through the process step by step. Utility rebates and other incentives* for qualifying improvements are offered for a limited time only, so get started now!

* Check for availability.
Michigan Saves: Easy As 1-2-3

2. Apply for financing through a Michigan Saves authorized lender. Your contractor will provide you with the application.

3. Once the financing is approved, your contractor installs the upgrades and is paid directly by the lender—after the work is completed to your satisfaction.

Michigan Saves Business Energy Financing Facts

- **Financing types:** Equipment finance agreement, lease, loan, rental agreement, or energy services agreement
- **Eligible improvements:** Energy-saving measures prequalified by Michigan Saves or those recommended by an authorized energy auditor
- **Amounts:** Starting at $5,000
- **Terms:** Up to 12 years
- **Rates:** Fixed rates starting at 7.0% APR; special rates as low as 0% APR may be available through participating utilities
- **Fees:** Documentation fee of $250 paid to the lender; Michigan Saves assesses participating contractors a modest fee not to exceed 1.99% of the project cost
- **Who’s eligible?** Owners or occupants of commercial buildings (includes businesses, private schools, multifamily properties, houses of worship, and other nonprofit organizations)

Michigan Saves is a nonprofit green bank dedicated to making energy improvements easy and affordable.
